Project Objectives –

➢ To duplicate the Bass Highway from Lang Lang to Anderson.

Facts

• Duplication of the Bass Highway has been completed in the Grantville Township, and from the South Gippsland Highway to the Gurdies. Construction of the duplication from the Gurdies to Grantville has commenced.

• The section from Grantville to King Road near Bass Township was funded in the 2005/06 State Budget with construction expected to commence in October 2006.

• Planning for the remaining section from King Road to Phillip Island turnoff at Anderson will be finalised by VicRoads this financial year 2005/06.

• Traffic volumes are currently growing by approximately three percent annually and are 10,000 vpd. on week days with weekend and holiday regularly exceeding 16,000 vpd.

• The traffic volumes, associated with major events at Phillip Island are well in excess of these figures and create congestion after these events.

Project Details

• VicRoads has finalised planning for the final stage 6/7 to Anderson.

• Construction should commence in 2007/08 for completion within 2 years.

SEATS Recommendation

➢ That the Duplication of the Bass Highway from Lang Lang to Anderson be planned designed and constructed by 2010 ($50m).
