

GIPPSLAND LINE UPGRADE

The Victorian Government is upgrading the Gippsland line to deliver more frequent and reliable services.

IMPROVING TRANSPORT FOR A GROWING REGION

The number of people choosing to live along the Gippsland rail line is growing, with Warragul being one of Victoria's fastest growing regional centres and Drouin, Traralgon and Bairnsdale also set to grow.

The \$435 million Gippsland Line Upgrade will deliver more trains more often, and a safer more reliable journey, paving the way for more services all the way through to Bairnsdale.

PROJECT SCOPE

The Gippsland Line Upgrade will include:

- duplication of track and new second platforms at Bunyip and Longwarry
- 20 level crossing upgrades along the line
- extended track duplication near Moe towards Traralgon
- upgraded drainage at Morwell River
- extended crossing loop at Morwell
- a new second platform at Morwell Station
- 9km track duplication between Morwell and Traralgon
- modernised rail signalling at Traralgon Station
- a new second platform and train stabling relocation from Traralgon Station.

LOCAL JOBS, LOCAL CONTENT

The Gippsland Line Upgrade will establish a local project office in the Latrobe Valley and will see 400 construction jobs created.

Through its *Victorian Industry Participation Policy (VIPP)*, the Victorian Government is committed to improving opportunities for local suppliers to create more new jobs, industry skills and training and grow the economy.

The Gippsland Line Upgrade will apply the VIPP to ensure local suppliers have an opportunity to bid for work.
